State laws may vary as to the minimum age of operation, check your local laws before riding.

An all-terrain vehicle is any motorized off-highway vehicle designed to travel on four low-pressure tires, having a seat designed to be straddled by the operator and handlebars for steering control. Single rider ATV's are intended for use by a single operator and no passenger. Two-up ATVs are designed for an operator and one passenger.

### THE ATV SAFETY INSTITUTE'S GOLDEN RULES

Always wear a helmet and other protective gear.

Never ride on public roads – another vehicle could hit you.

Never carry a passenger on a single-rider vehicle.

Ride an ATV that's right for your age.
